DESTINY OF THE ISLANDS

WHAT WAS HEARD AND SEEN BY
SENATOR McCANDLESS.

His Return from the United States
After a Five Weeks' Stay—Views of
a Prominent Chicago Man.

Senator John A. McCandless, accompanied by Mrs. McCandless, returned last evening on the Miowera from a five weeks' stay in the United States. Both are in the best of health and the Senator says that the trip did him a world of good despite the fact that nearly every hour of his time was occupied in attending to business matters.

"However, I always found time to converse with those I came in contact with, either while traveling or in the cities, on the Hawaiian question," said Senator McCandless. "It was even surprising to me to find the many staunch friends we have in the States. The majority seemed convinced that these islands are destined to become a part of the Great Republic."

"What pleased me most while away was a conversation which I had with the head of the great Mott iron works, in Chicago. That gentleman is a strong Cleveland Democrat and this year cast his ballot for McKinley. To me he stated that he was decided opposed to Hawaii coming into the Union four years ago, but now he has concluded that the absorption of these islands by the United States is inevitable and the sooner it takes place the better."

Senator McCandless says that McKinley's inauguration into the Presidency has had the effect of restoring confidence in all branches of trade. People who are opposed to him politically believe that he will make an excellent President and they do not propose to put any blocking stones in his way. The Senator did not go beyond the Ohio river. He says that he heard nothing from Hawaiian officials now in Washington, nor had the recent Japanese embassies come to the knowledge of the American people.

THE EMPERORS BIRTHDAY.

The Germans of Honolulu will celebrate the anniversary of the birth of Emperor Wilhelm on Monday at the Hawaiian hotel. An elaborate dinner will be spread. The Government band will not give the usual Emma Square concert on that evening, as they will play at the hotel for the occasion.

FROM YOKOHAMA.

The Sakura Maru Arrives From the Orient.

The Nippon Yusen Kaisha's steamship Sakura Maru, from Yokohama to Seattle, arrived off port shortly before noon, and anchored outside, where she was boarded by the customs and quarantine officers. Up to 2:30 o'clock this afternoon no one had come ashore from her, so that it was impossible to learn anything of her trip or of the passengers she has on board.

Another batch of Japanese laborers are expected on the Sakura Maru, according to popular report, although the agents of the various immigration companies say they do not expect any. A great many people are waiting on the dock to get the first news.

A HANDSOME SADDLE.

The Manufacturing Harness Co. have just finished a handsome Spanish saddle, made for G. F. De La Nux, of Paauhau. This is a strictly home made affair, even to the tree and girths. The stamping of the leather is a fine piece of work.

FINE SHIRTS.

Best American and Japanese make of shirts at K. Furuya's.

Success in business depends upon success in advertising.

Typewriters Repaired.

Repairing typewriters is one of our specialties. We can do it right, with despatch, and guarantee our work.

Old typewriters taken in part payment for the Peerless. New and second hand machines on hand.

Have you decided on a typewriter yet? The Peerless fulfill every claim made for them. Only a few, more left. Get yours to-day.

Hawaiian Cycle & Man'g. Co.
opposite Lewers & Cooke.

STREET TO BE EXTENDED

VINEYARD STREET WILL BE
BUILT TO PUNCHBOWL.

Government Negotiating With Property Owners Now—Not Difficult to Acquire Right of Way—Street Work.

Minister of the Interior King stated this morning that the work of extending Vineyard street from Emma street toward Punchbowl would be taken up shortly now. The Government is at present negotiating with property owners for a compromise on damages. It is believed that no difficulty will be experienced in acquiring the right of way.

That part of the road from Emma to Fort street has been macadamized and has been open to the public travel for nearly a fortnight. The survey has been made from Fort toward Nuuanu avenue and workmen are engaged opening the road from the Nuuanu end.

The dissatisfaction that was manifested because of the road from Fort to Emma street containing a complete reverse curve seems to have disappeared since the explanation of the Government, made through The Star, to the effect that exorbitant damage charges caused the present survey to be made, was published. The lines toward the Nuuanu end are satisfactory to the taxpayers in the vicinity.

GREECE WANTS MEN.

War Reserves in the United States Summoned.

NEW YORK, March 6.—Alexander G. Skouzet, minister of foreign affairs to King George of Greece, cabled to the acting minister, instructing him to call out members of the Grecian reserve in the United States and urge them by every means to go to the assistance of their native country. D. N. Boates, acting minister and consul general of Greece at New York, said the cablegram indicated that war was imminent.

"It is very serious," said he. "I am instructed even to call out the reserves that belong to the class as far back as 1866. So it is evident that King George sorely needs the support of every able bodied Greek in this struggle."

"In this country there are about 20,000 Greeks. Of these probably about 5000 belong to the army reserve. Through the Associated Press, in the name of King George, I wish officially to notify all members of the Grecian army who are in this country that their fatherland calls them back to its ranks. And to all Greeks, whether they have fought in bygone days or not, I say in the name of my King, your country needs you."

BATTLESHIP OREGON.

SAN FRANCISCO, March 6.—All sorts of rumors have sprung up on the water front in regard to the sailing of the battleship Oregon. The reports have varied greatly, some being that she was to start next week on a trip to Seattle to go on a dry dock. A small sensation was created today by the river boat J. D. Peters going alongside and discharging into the Oregon a large cargo of flour. It was an indication that the battleship is preparing for a long cruise, and water front prophets said that the war vessel was getting ready for a voyage to Cuba, in case of war with Spain. The cruiser Philadelphia has already started toward Cape Horn, and though common report has it that she will return this way in a few weeks, the water front wisecracks believe that only enough vessels to protect San Francisco will be left on this coast.

SILVER MEN LIKE MCKINLEY.

NEW YORK, March 5.—Congressman Francis G. Newlands, the free silver representative from Nevada, in an interview today said:

"President McKinley is a strong, honest man, and the silver men entertain for him personally the kindest feelings. They realize the importance of legislation along the line proposed by him, and they will not attempt to embarrass him or the Republican members of Congress by putting obstacles in the way of the speedy passage of a tariff measure."

"NOW IS THE TIME."

At this season of the year good housewives are thinking of replenishing their stock of bed and table linen, and for their special benefit L. B. Kerr has imported a large and varied lot, which he will sell at prices that no competition can come near.

MR. HOOVER ON HAWAII

MORE IN FAVOR OF ANNEXATION
THAN EVER.

On His Return Home the Spokane Chronicle Interviews Him on Affairs in This Country—Japs a Menace.

Jacob Hoover, president of the Exchange National bank has returned from a month's trip to the Hawaiian Islands, where he went in search of health, says the Spokane Chronicle. He comes back feeling much improved as a result of his ocean voyage and breathing the balmy air that prevails over the islands at this period of the year. Speaking of his observations during the eight days that he spent at Honolulu and vicinity, he said:

"The islands were never in a more prosperous condition than they are at present under the American form of government. President Dole is a most mild mannered and pleasant gentleman whom it is a pleasure to converse with, but he runs the Government in a manner that commands respect from all, and even the natives as a rule, are coming over to the Republican form of government."

"I was an annexationist before I left here on my trip and after my visit to the islands I am more in favor of annexation than ever. As a matter of fact I cannot see how any one on this entire continent can for a moment oppose annexing the islands for the reason of self-interest alone. The people of the islands are beginning to realize that Californians, who have always favored the royalist government, have done so for no other reason than that they were able to secure greater concession from that source, to the consequent injury of the islands, and they are now looking to the Pacific Northwest as a better field in the matter of relation to trade, both export and import. They are anxious to enlarge on the reciprocity arrangement with this country and are willing to increase the list of exports in order to obtain the benefit of an increased import."

"Mr. Smith, Attorney General of the Hawaiian islands, was a passenger on the same steamer upon which I came back. He is on his way to Washington and while he did not exactly disclose his mission to me I know that it is for the purpose of pressing the annexation movement before the new administration."

"Queen Lil can never occupy the throne there again, unless it is by force of arms, and then she would require a large standing army to keep her in power. While there are a great many natives who favor the deposed Queen there is also another faction who oppose her and favor the seating on the throne of another family, whom I am informed have really no claim to royal honors. The latter faction, however, rather than Queen Lil should reign again, will support the Dole government."

"One reason I so strongly favor annexing the islands is that with the large number of Japs over there who are always aggressive, it is a standing menace that Japan will try and acquire possession. At present Americans represent three-quarters of the capital invested in the islands. In population, of course, Hawaiian head the list. Next comes Japanese, with Chinese a close third, Portuguese fourth and Americans fifth."

"Yes, sugar is the chief industry of the islands, but coffee is destined to become a great factor in the exports as this field of industry is gaining rapidly. Chinamen are raising rice in large quantities. The fear that the sugar industry of the islands would tend to injure the beet sugar industry of this country in the event of annexation is entirely groundless, for the reason that the islands cannot possibly raise sufficient sugar to supply the demands of the United States. It is but a drop in the bucket."

GUARDIAN'S SALE OF REAL ESTATE.

Nannie R. Rice, Guardian of the estate of Robert E. Brewer, gives notice that she will sell at public auction to the highest bidder, at the entrance to the Judiciary Building, in Honolulu, Oahu, tomorrow, Saturday, the 26th day of March, 1897, at 12 o'clock noon of said day, all the right, title, and interest of the estate of said minor in and to the following described property, to-wit:

All the land and hereditaments situated on the Ewa makai corner of Judd and Liliha Streets in said Honolulu and being all of the premises conveyed by Emma Kalelelanani to John Brewer by deed of quit-claim dated the 29th day of April, A. D. 1875.

CRICKET PLAYERS ACTIVE

INTEREST AWAKENED AMONG
THE LOCAL PLAYERS.

Two Teams Will Compete Tomorrow at Makiki—Tennis Club Elects Delegates to Arrange Tournament.

If baseball does not have a lively rival in cricket this season, then a great many people who have been watching the progress of the great American and British games in this town will be surprised. Since the new officers of the Honolulu Cricket Club have had charge of things, there has been much activity in the sporting fraternity of the English colony.

Yesterday afternoon there were fully two dozen men practicing on the barracks grounds in front of the armory. The old players, who had cast aside all thoughts of ever taking up cricket again, got around with as much alacrity as did the younger fellows, who are just beginning to uncork their enthusiasm for this season's games.

A meeting of the Club will be held on Monday when some seven or eight new members will be taken in. A match game takes place on Saturday afternoon on the Makiki grounds.

Walter C. Weedon, who enjoys the distinction of being the captain of the first cricket team in Honolulu—the Albion—is again on the field after a retirement of two or three years. Captain H. Herbert of the Actives, is voted by all to be the most graceful batsman in the club. When Young Ahlo gains more strength he will make an excellent player. He has a good idea of the game. Alex Mackintosh is a clever all around player. Sam Woods and Donald Ross, crack base ballists, are splendid men in the cricket field. A. Hatfield is a good bowler. Tom Jordan is a good example of an old English gentleman who still plays a graceful game. Horace Wright gives every evidence that he was an expert cricketer in his youth. Robert Seringour demonstrates his fondness for the game on every occasion. Several years ago he was captain of a Honolulu cricket eleven. Harry Vincent is a good all around man. Willie Lishman's playing has been favorably commented upon from all sides this year. Dr. Murray, Charles Norton, Thompson and Vice Captain Hatfield are quite efficient in the game. The latter is a good bowler, but the boys say that if he would get out to practice oftener he would make an enviable record for himself. Even Professor Yarnall and Thomas Lishman have a surprise in store for their most intimate friend. Professor Yarnall will probably be obliged to have some one run for him owing to an accident last week.

Here are the players who are practicing for Saturday's game. The teams will be selected tomorrow:

Veterans—Rev. Mr. Kiteat, Walter C. Weedon, W. Lishman, R. Mossman, J. Lightfoot, E. W. Jordan, Robert Seringour, Horace Wright, Harry Vincent, D. Logan, Dr. H. C. Watt, Shillits, Scanlan, A. M. Hewitt, Thos. Lishman, Professor Yarnall.

Actives—Dr. H. V. Murray, C. H. W. Norton, W. Thompson, R. Catton, L. Ahlo, W. L. Stanley, A. Hatfield, Donald Ross, Sam Woods, Alex. St. M. Mackintosh, H. Herbert, Viggo Jacobson.

The delegates from the various tennis clubs to the Hawaiian Tennis Association came together in the office of the Hawaiian Safe and Deposit Company on Fort street late yesterday afternoon. President George Potter presided over the meeting. After a brief discussion of tennis matters it was voted to hold the annual tournament in May. The exact dates, as well as other matters pertaining to the tournament, were left to the discretion of a committee comprising Charles H. Atherton, of the Beretania; Dr. A. E. Nichols, of the Valley, and S. G. Wilder, of the Pacific Tennis Clubs. The members of the various clubs will now start in to practice in earnest. The old players recognize the fact that new blood is to be competed with and they will strive to be in the best form possible. It is understood that arrangements for the coming tournament, which, by the way, is the second given under the auspices of the Association, will be on a much larger scale than before.

To those not in the habit of visiting the boat houses or strolling along the beach, the impression might prevail that there is a lull in boating circles. But this is not so. The Myrtles and Healanis are very active and each club

MEMBERS OF NEW CABINET

TOOK THEIR OATH OF OFFICE
AND WENT TO WORK.

The New Officers Lost But Little Time in Entering Upon Their Official Duties—Simple Ceremony.

WASHINGTON, March 6.—The executive mansion today was the center of attraction for a great crowd, including many prominent public men. President McKinley was at his desk at 9 o'clock, clearing away more pressing matters. The commissions of the new Cabinet were signed by the President early in the day, and all members, except Gage, took the oath of office at the White House at 11:30.

It was a simple and impressive ceremony. President McKinley and Mr. Sherman led the way from the President's office to the blue room, where the justices of the Supreme Court were assembled. Mr. Sherman was the first sworn. The Chief Justice administered the oath. Then followed the other Cabinet officers in order of rank.

Justice Gray, of Massachusetts, administered the oath to John D. Long, of that State, and for the same reason of locality Justice Brown, formerly of Michigan, administered the oath to General Alger as secretary of war. All other oaths were administered by the Chief Justice.

Lyman J. Gage took the oath in the secretary's office in the treasury department at noon. Chief Justice Fuller administered the oath in the presence of a distinguished company, which included relatives and friends of Mr. Gage, part of the Illinois delegation in Congress and the principal officials of the treasury.

The Chief Justice read the oath, Gage repeating it sentence by sentence. The first sentence was, "I, Lyman J. Gage, of Illinois, do solemnly swear," but Gage declared, "I, Lyman J. Gage, of Chicago, Illinois," the emphasis which he put on the added word "Chicago" inspired a general smile. When the oath had been repeated, Secretary Carlisle stepped forward and took his successor's hand, saying: "I want to congratulate you and wish you every success."

The new officers lost but little time in entering upon their official duties. The installation of John Sherman as Secretary of State was accomplished without bustle or confusion, and with as little ceremony as possible. Senator Sherman at noon came over to the state department and Mr. Olney introduced him to the heads of the bureaus of the department. Mr. Babcock, who has been appointed private secretary, had been initiated by Mr. Blanford, the retiring private secretary, into the duties of his office.

Benson, Smith & Co. desire us to publish the following extract from a letter of Chas. M. Gutfeld, of Reedley, Fresno County, Cal., as they handle the remedy referred to and want their customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs. For sale by all druggists and dealers; Benson, Smith & Co. agents for the Hawaiian Islands.
